1993 summer holidays NEWSLETTER

The PGK is pleased to be able to present the 1993 membership list and historical record of past activities as a gift to all members on the occasion of the 15th anniversary of the Petroleum Geological Circle.

During the summer holidays there will be no meetings, but many members are very busy helping to organise field trips, guides and short courses for the AAPG international conference and exhibition: 'New views on old world oil, Technology leads the way', which will be held at the Congresgebouw in The Hague from October 17-20. Should you still wish to receive a brochure of this conference, please ask the PGK secretary.

We wish you a pleasant holiday and look forward to seeing you again in September.

Forthcoming PGK events

- September 15** Drs. B.M. Schroot from the RGD will speak about: 'EXPLORATION BOOM IN THE REPUBLIC OF YEMEN'.
- October 7** D. Bird from GAPS will speak about: 'CONTROLS ON CARBONIFEROUS RESERVOIR QUALITY IN THE SOUTHERN NORTH SEA'.
- November 17** Drs. H. Frikken from NAM will speak about: 'CHARACTER AND PERFORMANCE OF SMALL FIELDS, CENTRAL OFFSHORE, NETHERLANDS'.
- December 17** Drs. W. H. Nieuwenhuijs from TU Delft will speak about: 'INS AND OUTS OF FAULTS'

MEMBERSHIP

The following persons have applied for membership of the PGK: Nigel R. Dodds (District Manager Western Atlas Int. Inc), René Fraaije (Curator Geo Centrum Brabant), Axel Hartman (recent graduate VU Amsterdam).

Our records will be updated again during August 1993. Consequently, some members, who have paid, will still see '93' printed at the bottom of their labels. If this bothers you, you may ring the secretary in order to correct this error. All those who have not paid, please remit f25, your yearly dues, into one of the accounts mentioned above, **NOW**.

For those PGK members who are not members of KNGMG and wish to become so, KNGMG brochures and application forms are available at our monthly meetings and from the PGK secretary.

SPONSORSHIP

Since our June newsletter, no new sponsors have come forward. The PGK thanks all sponsors listed on page 8 of the accompanying booklet, in particular TNO Institute of Applied Geoscience, who arranged reproduction of this membership list and Atlas Wireline Services who took care of mailing.

The cost of distribution of this newsletter and membership list is paid by ATLAS WIRELINE SERVICES.
