### PGK FEBRUARY MEETING

The PGK February meeting will be held on **WEDNESDAY, February 19**, at 17:45 pm and will be preceded by aperitifs from 17:00 pm onwards. The lecture will be held at the KIVI building, Prinsessegracht 23, The Hague. This will coincide with the **Annual General Meeting** which will be held before the lecture. A **raffle** will also take place for the last bottle of the *Lagavullin*. Memembers can buy tickets for f5 and the draw will take place before the lecture. Wines & Whiskies, Delft is thanked for this sponsorship.

Dr. Andrew Hurst of The University of Aberdeen will speak about: "**Rims of Prospectivity**". The speaker has provided the following abstract:

*As the North Sea exploration petroleum province matures, structural and stratigraphic targets in close proximity to mature source rocks within basinal areas become less easy to delineate and too deep to be of likely commercial interest. Commonly, areas flanking the basinal plays have a long history as palaeogeographic highs, and at the present day are shallow relative to most productive reservoirs and their oil kitchens. Exploration of the "palaeohighs" has been somewhat haphazard and recently has tended to focus on the potential of Tertiary strata. There is however, a record of discoveries, often of lighter oil than associated with Tertiary intervals, within Mesozoic strata. Traps frequently have palaeogeomorphic components and are frequently not located on present-day structural highs. With the advent of increasingly cost-effective 3-D seismic surveys, the subtleties of the ancient rift margins are a more amenable target for exploration.*

## MEMBERS NEWS

We have received an application for membership from **Mr. Frank van Bergen, Mr. Bart Dekkers, Mr. Jeroen Goudswaard, Mr. Michiel van Houte, Dr. Rudi Luyendijk, Mr. Geoffrey McMillian, Mr. Yvan Pannatier, Mrs Elisabeth Pannatier-Graf, Mr. Jaap Veldkamp** and **Ms. Corine de Zeeuw**. We also have a re-instatement of **Mr. John Keasberry**. If no objections are received by the end of the next meeting they will automatically be (re)elected members of the society.

If you look at your mail label you will see 97 at the bottom. This means that the dues for 1997 are now liable. Some members have already paid and are in credit while others will see a longer list of years on this line. Please remit f25 for each year due, into one of the accounts mentioned above ASAP. The treasurer is currently looking into how to pay by credit card. More news of this later.

Members with e-mail and **Eudora** (preferably running on a Macintosh) may also receive the newsletter digitally from the following address **campbell@nitg.tno.nl**. EudoraLight can be obtained free from the following site: <http://orien.qualcomm.com/quest/commercial.html>. The PGK has a new home page on the Web. The address for those interested is: <http://www.wak.tn.tudelft.nl/~pgk/index.html> Many thanks go to Frederic Verhelst of the Centre for Technical Geoscience, LSA, Fac. of Applied Physics, Delft University of Technology.
