PGK EXCURSION 18-26 JULY, CANTABRIAN MOUNTAINS

To celebrate 30 years of unchanged PGK success

The PGK, founded in June 1978, celebrated recently its 30th-anniversary; a period of mainly highpoints such as:

- some 300 successful monthly presentations with social hour binding its members together
- some 30 successful annual “more days” excursions,
- regular additional annual one day-excursions,
- five significant conferences of which three were international,
- monthly distribution of a much appreciated "Nieuwsbrief"
- and occasional miscellaneous activities such as a producing a” news brief on oil geology" for secondary schools in The Hague, and establishing a permanent landmark at De Mient memorizing the first West-Netherlands Oil find.

To celebrate this remarkable performance, PGK’s co-founder Tom Reijers organises, at PGK’s request, a geological excursion to the Cantabrian Mountains (8 days).

Detailed information and prices can be found at the website:

Title: “Lending to the Oil and Gas Industry”

By Gustave van Meerbeke
Senior Advisor Energy & Resources, Oil and Gas

The presentation first reviews the oil and gas playground and the level of risks in a company's life cycle, describes the various types of structured financings available, review of risk analysis and the due diligence process required to get the structured financing marketable, followed by a review how payments are secured. In this section basic financial structures are discussed. Finally I hope to be able to say something about the state of the financial markets.

Please post this page on your company's notice board. Members may be accompanied by guests!
